

**Subject:** Elections Concern

Hello All,

If someone could please let me know if they get this, as for some reason my email seems to be giving me email kick backs and saying they **arent being sent** and stuck to outbox.

I am working on **filing an elections** complaint to formalize **this, if you could** please send me the link to **do so.**

I do not know if anyone is aware but there is some serious election violations circulating through yik yak. Calling Luis a Rapist? Promoting Guerra Alquiza in ways that are bullying and demeaning of others? This platform should not be permitted and is destroying the ASUN integrity. And needs to be addressed like yesterday.

Students have brought it to my attention and I have done and am doing my research which is confirming it, so I am

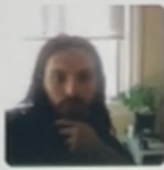

that are bullying and demeaning of others? This platform should not be permitted and is destroying the ASUN integrity. And needs to be addressed like yesterday.

Students have brought it to my attention and I have done and am doing my research which is confirming it, so I am bringing it to your attention as well. I am working on Documenting more but felt this needed to be taken care of with prompt care and not just let it ride through.

Can't believe what I am reading. I gave two quick examples below. I will be awaiting your response.

Side note to begin, as I just thought about this. And then I did a bulk inclusion. Zane and Brayden, you can't say there isn't precedent when you regulate what we post on Instagram. This can be and must be regulated Now! Sorry to put people in their place but you all should be doing this and not me having to step up and demand what is obviously expected. Makes sense why so many don't participate. If the ASUN does not make a formal denouncement tonight of the rumors being spread about a student in order to sway the election, a video will begin circulation denouncing the ASUN and we can see how you don't represent students!

Defamation is not protected free speech. Please feel free to observe the conversation previous for more context.

Cameron Rose

Hello Cameron,

In regards to the app Yik Yak, we as an association have no control over external media or free speech on these social media platforms.

Though I do not personally agree with the app and its use, ASUN has no authority over what is posted there.

Here are the links to the elections complaint form, as well as a formal charge sheet.

**Subject:** Re: Elections Concern

First, defamation and bullying is not free speech. You should know this as it is not protected!

Second, while I understand we do not control yikyak, there is a huge difference between not having control and a site being used to alter the results of an election through defamation of a student. And while the site may not be controlled by the ASUN, acknowledging the impact that yikyak is having which has created an unsafe environment, an impact to the election and preventing such fraud is the ASUN responsibility. This makes our elections look like a joke! And like we are a bunch of bullies as students. 🤔 This must be acknowledged and condemned immediately. If the organization won't, I will and I will use this as a means to disband the organization because this is detrimental to everything we are as a University! Are ASUN elections a tool to bully students?

Further, and let's not act like it can't be found

Further, and let's not act like it can't be found out, to feign as if this isn't meddling and if Boris or any of his campaign people are the ones who have made this post, this is an election violation sufficient enough for disqualification. This is not a minor issue and the Association should again immediately address these issues and not let them persist!

I hope this is sent right and if not I will send it via again my main email.

Cameron Rose

P.S. I am still desiring to file an election violation complaint against Boris as I feel this was sent and started by his team.
